RE: Mr. Zaras Christos

To Whom It May Concern:

I first was introduced to Mr. Zaras approximately eight years ago through a mutual security acquaintance. Mr. Zaras immediately stood out to me, as he was motivated to discuss topics and trends occurring in the protective security realm. Mr. Zaras assisted me in providing personal protection for Christina Aguilar while on business travel in the Mediterranean region. His performance demonstrated his commitment to the client and the company. Mr. Zaras utilized his knowledge and skills to ensure that the client was able to focus on their task and not worry about matters of security. The client noted that he was professional, punctual, and polite. Since that time, we have maintained a professional relationship and have discussed working together again in the future. He is an exceptionally capable human who uses his intelligence in balance with his physical strengths. Mr. Zaras possesses the unique ability to smoothly adapt to new environments while remaining calm and confident in the process. I would strongly recommend him to anyone, anywhere for any of his professional capabilities.

Respectfully,

Todd Fox
